

BHAVANI SANKAR NAVEEN DWARAPUDI

React.js & React Native Developer | 4 Years of Experience

dbsnaveen@gmail.com | +91 8186879491 | linkedin.com/in/dbsnaveen | Andhra Pradesh, India

PROFESSIONAL SUMMARY

Frontend and Mobile Application Developer with 4 years of experience building scalable, production-grade React.js and React Native applications across enterprise environments. Proven track record of delivering multi-portal web platforms, cross-platform mobile applications, and B2B digital solutions using React.js, React Native, Redux Toolkit, TypeScript, and Material-UI. Strong expertise in role-based access control, REST API integration, Firebase analytics, performance optimization, and multilingual UI. Experienced in Agile delivery, CI/CD pipelines, and leveraging AI-assisted tools (GitHub Copilot) to accelerate development. Currently expanding full-stack capabilities with Node.js, MongoDB, and PostgreSQL (MERN/PERN).

TECHNICAL SKILLS

Frontend: React.js, React Native, TypeScript, JavaScript (ES6+), Redux Toolkit, Context API, HTML5, CSS3, Bootstrap, Material-UI (MUI), Responsive UI Development

Backend: Node.js, Express.js (REST API integration and basic backend development)

Databases: MongoDB, MySQL, PostgreSQL

State Management: Redux Toolkit, Context API

Tools & DevOps: Git, GitHub, Bitbucket, Azure DevOps, JIRA, Postman

Analytics & Platforms: Firebase, CleverTap, New Relic

Mobile Development: Android Studio, Xcode, QR/Barcode Scanning, Multi-environment Builds

AI & Productivity: GitHub Copilot, AI-assisted component generation

PROFESSIONAL EXPERIENCE

Software Engineer | *Aziro Technologies Pvt. Ltd* | Chennai

June 2022 – Present

Dr. Reddy's XCEED API — Admin, Internal SPOC & Customer Portals (Pharmaceutical B2B Platform)

Tech Stack: React.js, Material-UI, Redux Toolkit, Node.js, Express.js, AWS, MySQL

- Architected and developed three integrated enterprise portals from scratch — Admin, Internal SPOC, and Customer — using React.js and Material-UI
- Implemented fine-grained role-based access control (RBAC) with super admin and limited admin privilege models and protected routing
- Built scalable frontend architecture using Redux Toolkit for centralized state management across multi-role workflows
- Developed dynamic B2B ordering and customer onboarding workflows in the Customer Portal
- Implemented multilingual support using JSON-based language configuration files
- Accelerated component development by 30%+ using GitHub Copilot for reusable component generation
- Delivered the full platform within aggressive timelines through Agile sprints, QA cycles, and production releases
- Collaborated closely with backend teams on REST API integrations using Node.js and Express.js

Nuvei Bill Pay — Admin Portal & Citizen Portal (Municipal Bill Payment Platform)

Tech Stack: React.js, Material-UI, Context API, Node.js, MySQL, Strapi CMS, Azure DevOps

- Developed Admin and Citizen portals using React.js and Material-UI with secure authentication and authorization workflows via Context API
- Integrated Strapi CMS for dynamic content management, enabling non-technical teams to manage platform content
- Built reusable, modular UI components improving scalability and reducing development time
- Managed source control via Bitbucket and Azure DevOps Repos; participated in Agile ceremonies using JIRA and Azure DevOps Boards
- Supported QA cycles and production deployments ensuring stable releases

ICH (Internal Capability Hub) — Enterprise Workflow Management Portal

Tech Stack: React.js, Material-UI, Redux Toolkit, Java, MySQL

- Configured initial project architecture including protected routing, environment setups, and deployment configurations
- Implemented role-based access control (RBAC) and Google OAuth authentication

- Integrated REST APIs for internal workflow automation
- Contributed to full lifecycle development from setup to production deployment

Amazon — WoW & AMS Internal Warehouse Mobile Applications

Tech Stack: *React Native, Redux Toolkit, Firebase, Node.js*

- Led migration of applications from Ionic to React Native, delivering fully functional cross-platform apps for Android and iOS
- Integrated QR/barcode scanning for operational warehouse workflows
- Implemented performance optimizations using memoization strategies (React.memo, useMemo, useCallback)
- Integrated Firebase, CleverTap, and New Relic analytics for monitoring and user behavior tracking
- Configured environment-specific builds for development, staging, and production environments

Emami Frankross Health — Healthcare E-Commerce Mobile App

Tech Stack: *React Native, Firebase, Redux, Ruby on Rails*

- Developed responsive cross-platform mobile UI supporting product discovery and ordering workflows
- Integrated REST APIs for product catalog, user authentication, and order management
- Built reusable UI components and collaborated with QA teams to improve UX and stability

KEY ACHIEVEMENTS

- Delivered 5+ enterprise-scale web and mobile applications from requirements to production across pharma, fintech, e-commerce, and logistics domains
- Reduced frontend development time by 30%+ using AI-assisted tooling (GitHub Copilot) for component generation in React.js enterprise projects
- Successfully migrated Amazon warehouse apps from Ionic to React Native, improving cross-platform performance and maintainability
- Implemented multilingual UI support across multi-portal platforms using dynamic JSON language configuration
- Built reusable, component-driven UI architecture that accelerated team velocity across multiple projects
- Integrated Google OAuth authentication and fine-grained RBAC across enterprise portals

CERTIFICATIONS & CONTINUOUS LEARNING

- Full-Stack Web Development with MERN Stack — Udemy
- Full-Stack Development with PERN Stack — Udemy
- React Testing Library with Jest / Vitest — Udemy
- Advanced Material-UI Component Styling — Udemy
- The Complete React Native + Hooks Course — Udemy
- JavaScript & ES6 Full Course — Udemy
- Modern React Bootcamp (Hooks, Context, Next.js) — Udemy

EDUCATION

B.Tech – Electronics and Communication Engineering

Ramachandra College of Engineering, Eluru
